

Sacred Heart Catholic School  
Boone, IA

**Health Services**

Sacred Heart School shall teach health-related topics within its science curriculum. This teaching shall follow the objectives set for each level in this area. In conjunction with this, instructional staff shall see to it that community resources and resource personnel are used whenever possible to enhance and improve the teaching content.

The school shall yearly provide vision screening for all kindergarten students. Hearing screening for grades K-5 will be conducted annually by the AEA. All other students may be screened upon parent request. School personnel, following the standards of Universal Precautions, shall deal with routine health services and treatment of injuries.

Staff shall complete a yearly training regarding the Universal Precautions and Blood Borne Pathogens.
